University of North Carolina at Chapel Hill – Chapel Hill, NC
Bachelor of Arts, Economics and Public Policy

May 2030 (Expected)

Riverside High School – Durham, NC

June 2026

Summa Cum Laude; GPA: 3.9 unweighted, 4.5 weighted

- Project Lead the Way Engineering Achievement Award (2026); dual enrollment engineering coursework through RIT.

EXPERIENCE

Life At: Student Companion

June 2026 – Present

Founder and Developer | lifeatcarolina.com

- Built and launched a student app integrating class schedules, assignments, calendars, goals and campus maps; reached 1,000+ UNC student accounts in the first month, before fall classes began.
- Expanded one platform to 5 campuses: UNC, NC State, Duke, Penn State and UNC Charlotte, with campus-specific schedule importers, organization directories and maps.
- Launched the Life At iPhone app on the App Store in September 2026.

The Stock Dojo

July 2026 – Present

Founder and Developer | thestockdojo.com

- Built a portfolio simulator using live market prices to help first-time investors learn without risking money.
- Created an 8-unit, 36-lesson interactive investing curriculum with learning activities and rewards tied to studying.

Duke Faculty Club – Durham, NC

June 2024 – Present

Certified Lifeguard

- Work 25 hours per week during summers, overseeing pool safety, responding to member questions and maintaining facilities across 3 seasons; First Aid, CPR and AED certifications renewed May 2026.

LEADERSHIP AND COMMUNITY INVOLVEMENT

Riverside High School Varsity Soccer – Durham, NC

2023 – 2025

Team Captain (Fall 2025)

- Selected as Team MVP in 2025 and earned All-Conference honors in 2024.

Current Events Club – Riverside High School

2023 – 2026

Founder

- Founded the club and led weekly discussions on current events.

ADDITIONAL INFORMATION

- Client projects: Built the Regenerative Organic Alliance's searchable wine directory, winery map and bottle guide; developed a storefront connected to Shopify checkout for clothing brand Desideria.
- Technical skills: React, Next.js, TypeScript, Cloudflare Workers and D1, Supabase, Capacitor for iOS, Shopify integration, live market data APIs and AI-assisted development.
